"The semantic meaning of Satan is the "adversary" or "opposition" or the "accuser." The very word "devil" comes from the Indian *devi* which means "god." Television is one of the most powerful scientific indoctrination tools ever devised.
Watching TV for just a short period of time can put you in alpha state for a period of 45
minutes to 1 hour. This can take away from time from say reading a book and thinking
logically or just managing things in your life. This is how the populace is dumbed down,
docile and stupid. Because of Government control of speech and communication you have
no real outlet for a meaningful life. TV itself basically killed interaction and it started with
Media Relations and Edward Bernays. Media Relations is the Corporate-like
sensationalized form of Public Relations. A Type of PR from the Media is Called PSYOP
PR or Propaganda. TV is nothing but propaganda. We trust foreign corporations more
than we trust the local nations. The US is sold off to foreign corporations and Nixon
opened up foreign trade and sold us off. Before Prison was run by sadistic ding-dongs it
was a place to give people a second chance. The Salvation Army used to do good for the
people the unemployed were helped out by other people instead of social workers and
governments. Wellfare was not made to benefit society. Social Security is a good way to
milk the Government dry, but is also a scam. College is a Debt trap and a scam. Going to
college is a scam. The Interest on Interest based economy is just borrowing loans and
creating more of a fucked up economy. We are told the economy was doing good during
Obama, however so many people were homeless and unemployed. If you look at how the
economic system actually works it is based on interest on interest. Say you sign a contract
and bought something. You have to pay interest for the interest you paid on that thing.
The money you make has to be declared and taxes have to be paid for building more
prisons. Basically you are being ripped off and robbed. Liabilities are net loss Assets are
net gain. It is impossible now to store and save money in a real savings account. Assets
are actually only available to the privileged. The middle class is actually dying. The poor
are just there to be targeted by weed and seed and citizens on patrol along with
neighborhood watch. Corporations that run the state commit what is known as perjury. If
you see a notary statement saying something considered illegal or unconstitutional that
institution is committing perjury. In some cases you can file an notary statement
(affidavit) in the correct legal way and if you win you get justice if you loose you go to
jail for perjury. In this way Television is pure propaganda. You can simply go on the
Internet, look for an unbiased source and find the correct information. Governments will
abuse state power and take away privileges through court order or the unconstitutional
psychiatry. Political Reprisal systems were put in place to cut off all critical thinking and
ability to reason and think outside of the box. Psychiatry is one of them. Governments can
regulate and censor the Internet. Cut you off from accessing a server or the Internet and
seize your property through psychiatry. You can easily be locked in a nut ward and have
your hard drives and flash drives and all of your books that you read permanently seized

all you will ever have is your basic clothes your toothbrush, a shaver and/or scrubs for the rest of your life. The government can just sell all of your books and computers and smash and destroy all of your external and flash drives. They are allowed to do that simply because they are literally above the law. If you have ever been in 5150 you have to pee in a cup at gun point and you are likely to get shot. All the TV pedals is propaganda and pulp fiction. If you want to watch FOX NEWS, CNN, MSNBC, ABC, CBS, then I have news for you. Those outlets are all owned by one of the 6 companies. The six companies are GE, VIACOM, TIME WARNER, NEWSCORP, CBS, and WALT DISNEY. They are all on foreign servers and are not to be trusted. By the way who the hell even watches Fox News. Counter Intelligence has the job to gather information and data and counter information into disinformation creating basically a psyop, for instance with Aarabic Newspaper companies Counter-Intelligence created basic propaganda to test out the info and see what results they got out of it. The government uses public relations or should we say media relations to lie to the American, European, and Canadian public. Media relations is the televised type of public relations such as a commercial. One example would be those IT scams on TV. You look up what you see on TV and realize it is in fact a Scam. We know that DARPA a long with programmers for Open Source invented the Internet and the government is the abuser of state and federal power. Your Lawyer and Your Social Worker will always lie to you and take advantage of you. You simply have to help yourself. The globalists gave us the Internet to simply sell as a PR and get us into it so they could restrict us more Brazinski's 2 ages says with the interet they can regulate it and no government can loose control of it. So you see that every type of telecommunication we have TV, Radio, Shortwave, Pirate UHF/VHF, The Internet, CB/HAM Radio is regulated by some type of institution such as the FCC. The Least regulated things are the encoded digitalized things that operate through binary and ASCII. When Human Interaction, Communication, Publishing, and Education, Politics, Beliefs, Values, Media of any type, is all regulated you have a malleable, docile, stupid society that literally has no purpose and the final route is basically suicide. The Internet is not an Opportunity it is regulated by your malicious governmet and the globalists and is a loss of opportunity. The average person uses google or duckduckgo and those 2 are regulated by Alphabet Inc. Whatever google does not like it will not add it to it's search engine index. That is where you find weird talk like this. For instance the internet used to not ever say as soon as humans die they become psychic ghost. True to many remote viewers, however google wants us not knowing what is out there and to be a docile stupid populace not knowing about things that Remote Viewers already know about. Remote Viewing and giving Remote Viewing data away can get you put in a 5150 if you share certain governmental or political content. Counter-Intelligence is there to assassinate characters in person and online for the greater good of society. That is where government trolls come in to play and other crap like that. The promoters of Monitored Chatrooms are Intelligence people and are there to create cyber-wars for the greater good they say. All the main Intelligence Projects started with the Vietnam war and MK-Ultra which started as Project Artichoke. What we are seeing today is eyes and ears of the state involved in a

ear campaign sets of vigilante are doing what is known as gang stalking. It's called gang stalking by other Targeted Individuals. There are Atheist TI's as well. The other religious TI's are probably religious because they have no idea what is going on or that they are under covert electronic harassment. This covert electronic harassment can make them experience direct voices or internal voices or just plain Voice to Skull and Silent Spread Spectrum and Silent Sound. The CIA literally started a series of cults that are known now by the Cult Awareness Network. The Church of Scientology siezed all the Documents from the Cult Awareness Network. I would Say both groups are a cult however. I just don't bother with either one. I just save the CAN Document Index of Several Listed Cults that is about 150 pages long. The revolutions we have had with the hippies and so on it was known as free love. Led to dissociation after the CIA experimented on the patients that they had kidnapped. They were mainly targeting young folks during prohibition era to make it seem cool to do something that was considered illegal or taboo and to be paid lots of money. Prohibition of any kind is a dumb idea. All drugs should be legalized and decriminalized. Edward Bernays basically started what led to the hippy era. Before that it was beatnicks and before that it was other rebels of different types that could think outside of the box. The hippies and punks and millenials were the left over rebels who were drugged and poisoned and experimented on instead. The Original Rebels were occultists and beatnicks and The Left Hand Path. The Punks were the left over crap that was drugged and experimented on by the CIA. Every topic you learn from a public school or a television is highly politicized and full of propaganda. If you are ever in a mental hospital or nut ward or jail you are literally forced to look at government propaganda. Brazinski worked for the NSA and Said that television was originally devised to take away all critical thought. Keep in mind the internet is still highly policed just like the television or the shortwave radio. However more free speech is available on the internet or the un-indexed parts of the world wide web that google yahoo duckduckgo and bing do not index. Families helped out other people before welfare was ever invented. The family unit is basically destroyed by Governments and religious cults. TV only accepts the good politics, and now alphabet inc is ownership of google and there to censor the rest of the entire internet. You can call it DMCA NET or DISNEY NET for now. When we issue more government grants we spend more money on the military industrial complex, we loose freedom, and you are then "labeled a threat" for simply possessing some type of thing or piece of literature. One suggestion is Books and Reading Clubs. Starting a Reading Group is a good idea. Even A Youtube Channel on topics that matter and not weird propaganda from TV. TV can use up the time we need for doing other tasks such as reading and writing and simple things such as math. Too much TV equals less Assets and more liablity which finalizes to more net loss in your stock portfolio. The media never tells you how to be a good investor or a good cook or a good anything for that matter. You can learn much better by reading a book that is unbiased on how to do that task. There are plenty of ebooks and physical books you can read as well as better more unbiased information on the internet. Counter-Intelligence is there to counter our intelligence through disinformation campaigns and propaganda a long with

ber and vigilante stalking wars and smear campaigns with character assassination. TV killed communities and interaction all together. Government promoted the sales of television and to have a television in every retarded HOA Restricted house. Sports, Dramma, and Fiction are trivial useless things to distract us from more important issues. They use TV on younger audiences to set them in a level where they will not question governmets or authority without being ridiculed. Just questioning your government is considered immature and could get you kicked out of the house and left to die on the streets and basically pok-gai. Say you never had parents. Well, guess what you can now be imprisoned by your new dictatorship depending on what country you are in no one will help you and you have to see social services before the dead line otherwise you will be put on category j kicked out of society and left homeless. If you are a felon you will not be able to get an apartment because they do not offer shelter to felons but they do offer it to pedophiles however. Probation just means it does not work and you will forever be left homeless, no hoa will accept you and you will be rejected by everyone you see. HOA's accept some pedophiles but not felons. If you are a felon and you got discharged from jail you will forever be homeless. Simply because you commited a crime and can no longer be allowed in libraries or near a computer of any kind. If you look up Chinese internment camps you can see that You never really had any rights. The founding fathers ended only one sort of dictatorship and that was the church burning people at the stake. We are all brainwashed. Christianity is the root to all problems in the modern world.

The ratios for black rice are simmer black rice in
2 cups of water for one cup of black rice...
Done.
Fuck it.
-

Measure out two cups of water for every one cup
of rice. Remember that the rice will double in
volume once cooked.
-

Rinse the rice two or three times. Place the
rice in a bowl and run it under cold water.
Rub the rice with your hands. Let it sit and
then strain the rice. Repeat this process two
or three times. Doing this will remove surface
starches and prevents the rice from clumping.
-

Cover the rice in water one more time. Let
the rice sit in the water overnight. Doing
this will ensure that your rice does not clump.
If you don't have the time, cook your rice
after you have washed it two or three times.
-

Pour your measured out cups of water into a
large pot. Add the rice to the water. Do not
turn the stove top on until both the water
and the rice are in the pot.
If desired, you can cook black rice in stock
(chicken, beef, vegetable etc.) rather than
water oils and fats are not healthy so fuck that.
The stock will give the rice a saltier taste.
Most recipes state that you should have 1
cup of stock for every 1/2 cup of black rice.
-

Bring the water to a boil. Reduce the heat,
cover the pot, and leave to simmer for 20 to
35 minutes, or until all the water is absorbed.
-

Turn off the heat and leave the pot to sit for
15 minutes. Do not stir.
-

Fluff the rice with a fork to separate the
grains and serve.
-

Be aware that although the color of cooked
black rice is pretty, it may stain your
ceramic or enamel cookware.

In July of this year it became apparent through a flood of mainstream media reports that the National Security Agency (NSA) was "desperate to hire new hacking talent to protect the nation's critical infrastructure" yet the NSA is notorious for its surveillance programs on American digital activity.

David Petraeus, former director of the CIA, said at a summit for In-Q-Tel, that he was speculating on the "internet of things" and that "'Transformational' is an overused word, but I do believe it properly applies to these technologies . . . particularly to their effect on clandestine tradecraft."

Petraeus is seeking to better the CIA's ability to create online identities for undercover spies. Currently, each internet user has a digital footprint that can trace the movements online to the person on the other end of the screen. Petraeus wants to utilize technology that will essentially erase a digital footprint; erasing all traces of anyone at the whim of the CIA.

In a possible preparation for the ability of the CIA to spy on American citizens with their household items, the NSA's Utah Data Center is located in the Utah desert in the foot hills of the Wasatch mountain range. This is the centerpiece of the Global Information Grid; a military project that collects yottabytes of data. They are listening to every conversation, reading every post, intercepting every text message under the false flag of terrorism.

The facility has the technological ability to record and analyze every communication in the world. From emails to phone calls to text messages to chats; nothing is private anymore.

Based on "threat Levels" the NSA can use all the technology at their disposal to obtain information on:

• Finances
• Stock transactions
• Business deals

Standards of the Strong – Order of the Evil Eye – Acheron/Black Metal

1. No God(s) shall become before the self, for we are the masters of our own destiny. Anyone who relies on an invisible crutch is useless to society.

2. Life should be led like a wolf, be loyal to your own pack and alert to all that enter your domain.

3. To create something which is strong, one should use quality materials. The same must be done in the making of an elite mind.

4. Never forget those who have betrayed you, because a leopard is unable to change it's spots.

5. Always stand proud for what you believe in, no matter how much it may not be accepted. Hiding in the shadows is not the way of the strong.

6. The weak should be avoided like the plague, unless one can obtain something selfish by dealing with them.

7. Indulge in all of life's pleasures, instead of wallowing in pathetic misery. Life is here and now, so live it to the fullest.

8. Black Magick is the only true magick, because it grants gratification to the magician who uses it correctly.

9. Victory should be praised at all times and failure unaccepted. Conquests are the goals of life.

10. One must take responsibility for his/her own actions, whether it be positive or negative.

God Belief is a BRAIN DISEASE

Why do we need a simpler Life?

Today we all live in ruthless dictatorships, some times posing as so-called 'democracies', and to strengthen their grip on power those who rule plan to destroyour societies, by all means. Yes, no less.

They need to destroy our societies in order to have the excuse they need to implement marshal law and to get rid of all opposition, permanently. They want Muslims to clash with Christians. They want Communists to clash with Nationalists. They want traditional men and women to clash with homosexuals and feminists. They want all groups in society to go against each other, head on, violently, brutally and with as much blood-shed and chaos as possible. They want the entire world to look like Syria does today: a Syria they have destroyed, with their mercenaries. They want a civil war in every country on this planet.

Ladies and gentlemen, Syria is a foretaste of what is to come. Of what they have in store for us all. Of what they plan for our homelands and for us.

They control the mainstream media and the educational system, and use them to fill our heads with lies. They control the banks, and use them to enslave us. They own the consumer industry, and use it to bribe us. They control the pharmaceutical industry, and use it to poison us. They control Hollywood, and use it to brainwash us. They control our politicians and governments, and use them to destroy our cultures and societies. They control the so-called 'Muslims terrorists' and use them to make us wrongly belive that Islam is such a huge threat to us all. They control the food industry, and use it to poison us. They control the USA, and use her as their henchman. They control the EU. They control China. They control Russia.

They think they control everything.

But they don't…

"He who governs his home, governs his life."

All we need do to strip them of their power is to ignore their media, to home-school our children, to stop using their banks, to stop consuming like we do today, to use medicine as intended, to stop seeing films and series made in Hollywood, to not vote for their politicians, to tell the Muslims out there that we know they are not the terrorists here and to let them know that we have a common enemy, to grow our own food, to dig our own wells and perhaps most importantly: to lower our living standards. Instead of trying to have enough money to buy our own freedom, we should understand that we can only live freely without much money. We are only free if we lower our living standard – and we should anyhow. The way we live here in the West is neither healthy nor sustainable.

Return to a simpler life, and their power will crumble. And they will fall. Again. Like they have done so many times in the past.

Return to a simpler life, and you will see that behind the expensive cars, the fashionable clothes, the empty celebrities, the fancy houses and the thick layers of make-up life has real meaning. Behind all the lies there is a deep well of wisdom that we can all drink from, and grow wiser, healthier and happier.

"To learn who rules over you, simply find out who you are not allowed to criticize." (Voltaire)

itty Potatos by Dan Quayle (he spelled it Potatoe):
et and poke holes in the potato with a fork then
cook the potato one at a time (in a microwave safe
bowel) for one minute, repeat,
another minute until hot and soft check with fork and
done...
Oolong Tea...
1 tsp of xylitol/truvia sweetener...
Real oolong if you can find it not the teabag crap...
Heat 1 cup (8 oz) of water for 2 min and steep/wake
oolong tea in it done. Fuck this is stupid.
Just shake around 3 oolong tea bags in the cup until
it is dark and add xylitol/truvia beforehand...
Done you can also cool it off with ice cubes...
Do the same shit with green/black/white/oolong tea...
California Poppy and Opium Tea...
Lemongrass Tea Do the Same...
Giner can be added and stired in hot water and with
natural sweetener (xylitol/stevia/truvia), Nutmeg is
risky... Chamomile is also good... So is spearmint...
Valerian makes your shit stink. WTF...
Essiac is risky...
1 tsp Yohimbe bark in 8 ounces of flavored water....
That one makes you slightly see/hear things...
Marijuana Tea (just use a fricken stove and let it
simmer for 3 hours in buttery fat done, this
last idea fucking sucks):
1 stick of butter...
1 lid of pot (real pot that is consired illegal)
8 ounces of water...
A razor Blade...
A microwave...
Fats of any kind...
Steep Water (just the water for 2 minutes)...
Immediately ad the pot in small amounts combined with
the butter and let it steep till it is green
tea color...
3 minutes in microwave would be better...
Let the hot water sit and let the pot steep in the fat...
You can wait for it to cool for it to cool off..
Lastly run it through a mesh strainer as you would
any herb...
You can do the same for Opium poppys in fat or
Cocaine plants in fat as well... Fat has a stronger
effect... The butter is the fat...
Also goes good with alcohol on a stove simmering in heat.
If you do not have a stove use a microwave...

Five Satanic Virtues

Selfishness

To be selfish is to ask "What's in it for me?" Satan rejects sacrifice and martyrdom. The greater good cannot be built on self-inflicted misery. Selfless sacrifice puts us all under the pressing shadow of death. **We reject sacrifice and promote selfish indulgence.**

Laziness

To be lazy is to refuse to do what isn't working, to stop, to do nothing until we have a better idea, to try something else. When we feel like doing something, we will. If we work too hard, we won't stop to notice an easier way. **We reject fruitless hard work.**

Insolence

Insolence means not accepting things on authority, refusing to be humble and degraded, refusing to grovel and show respect to superiors. **We insist on dignity and freedom.**

Lustfulness

To be lustful is to embrace all the pleasures we can while we live, to follow our desires and passions wherever they lead us. **We run to the devil that tempts us to ask for more.**

Vanity

To be vain is to love and admire ourselves, to relish our own brilliance and magic, to see in ourselves what is beautiful and attractive, to build and nurture it. To be vain is to accept the forbidden fruit from the serpent in the garden. To be vain is to want to know more. **We proudly leave the narcotic fog of delusion behind us.**
